REMARK: Hello! We have a couple of questions and one detail to share: 1. We are arriving into Cusco Saturday morning, so we would like to confirm if doing the Palccoyo rainbow mountain day hike on Sunday makes sense given acclimation time, and with the 5 day Salkantay hike immediately afterward. 2. Relatedly, if both hikes are good, is there any blending or overlap in terms of accommodation that we should consider, or is it standard to get picked up from the same place each morning? 3. For the Paccoyo hike, can you confirm that the 3km hike has an elevation gain of 1200m, or if the 4900m high elevation is simply the top of Paccoyo mountain, and the viewpoint is at a lower elevation? 4. We have a severe allergy to peanuts and tree nuts, including cross-contamination risk in the group - what is the best way to ensure food preparation is safe? Thank you!	Total	3080.00
